DAVID KENWORTHY – EVOLUTION TREE AND HEDGE SERVICES

I wish to recommend to you David Kenworthy of Evolution Tree and Hedge Services. Over the last four years, David has been employed by me to undertake a range of tasks at our Farm Park including such things as tree felling, branch removals, scrub clearance, tree pruning and general countryside maintenance work. Certain of the tasks have been difficult and have required him to climb the tree to cut it down in sections.

All of the tasks have been satisfactorily and safely completed. The wood has been cut up and neatly stacked and the brushwood put into convenient piles for burning or removal. The sites have always been left clean and tidied up afterwards.

David is a very approachable and helpful individual and has proved more than capable of dealing with a number of challenges. His time-keeping has always been excellent and the work undertaken with due diligence and thoroughness.

I am therefore more than happy to make this recommendation.

Yours faithfully,

MR. CHRIS TURNEY
Farm Park Director

Attention Dave Kenworthy
Evolution Tree & Hedge Services

Dear Dave

Please find our cheque enclosed for your recent work here.

Barbara and I would like to say a big thank you to yourself, Darren and your team for the excellent job you have done on the trees in our garden.

The trees now look great and the cleaning up after you was immaculate. Thank you. I know that Ian next door is also pleased with the work you have done for him and his wife. We will be delighted to recommend your services to others and we wish you continued success in the businesses

Yours sincerely

Letter of Recommendation

To whom it may concern,

I wish to give my recommendation for excellent service, a really professional and courteous service to Mr Dave Kenworthy who was employed as a tree surgeon to remove some 8 very large conifers and one enormous weeping willow from the vicarage garden last year. The conifers were in excess of 80 years old and the willow of similar vintage.

Mr Kenworthy was then employed with Abbey Trees as a climber, and with meticulous care prepared the trees for felling by reducing their height and removing all lateral branches. This he did using sound Health & Safety techniques and will due care to our neighbours property. This was an important aspect as several of the trees had overgrown our property.

The quality of work was excellent at all times. David carried out the work to the letter in chipping the small branches and stacking the larger timber neatly. There was a little minor damage to neighbouring trees and he made that good removing some of the dead wood to their stock at the same time.

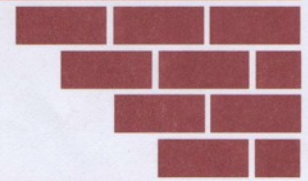

The contract price that we agreed at the start of the job was adhered to despite the fact that David did some restorative work to one neighbour's tree. I was so pleased with the quality and professionalism of the work that they carried out on the vicarage that I invited them to come back to take out three conifers from the churchyard (a tricky job as one had almost grown into the power lines) which required minimal disruption and collateral damage to other trees and the lawned area. Again I was really pleased with the way the job was carried out to price and the whole area left clean and tidy when they had finished.

I can wholeheartedly recommend David to you for the quality and professionalism that he uses in his work. His courteous manner and obvious expertise in the job gives a great sense of security when employing him, making it a pleasure to leave the tree surgery to this expert.

To whom it may concern,
During the month of January 09 Evolution trees undertook a great deal of tree work at a property managed by ourselves on behalf of an American based client. During the quotation process David came across as very professional knowledgeable and courteous. His quotation was presented in a clear and precise manner detailing the job exactly. During the six days it took to complete the work David kept us updated on progress even going to the extent of taking and emailing progressive photos to our client in America. Upon completion we met onsite to undergo an inspection and found to our satisfaction all works detailed in the quotation had been completed to a very high standard. We would be happy to recommend Evolution trees to anyone requiring the services of a professional tree surgeon.

Regards Tony Dyer.
